

ITALIAN PRESSURE CONTROLLERS

ITALIAN PC SERIES

These premium grade pressure controllers are manufactured in Italy under stringent quality standards; offering only the highest performance. The unique patented design of the Aquamatic and Hydromatic versions are immune from common pressure controller issues, such as the forming of condensation in the electronics, as the electronic and hydraulic chambers are entirely separate. Cut in pressure is adjustable for extra versatility in function, on the Hydromatic versions.

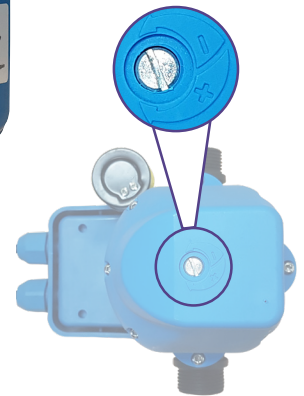

RPC15-IT

RPC22HF

RHMPC15
RPC15ADS-IT
Adjustable cut-in pressure

APPLICATIONS

- Constant home pressure supply
- Automatic operation of pressure pumps
- Hydromatic & MasControl are ideal for high starting pressures
- Irrigation systems
- Rain to mains systems - RPC15ADS-IT type

FEATURES & BENEFITS

- Pressure gauge on the Hydromatic for easy leak detection and system monitoring
- Easy to use adjustable starting pressure screw - 1.5 to 3.5 bar on RHMPC15 & RPC15ADS-IT
- Separate pressure / electronic chambers - prevents condensation forming in the electronics
- Advanced run dry protection for best pump motor protection
- Power-Pump-Failure Indicator Lights
- RPC15ADS-IT versions have auto-restart function after a run-dry event
- RPC22HF version is a genuine MasControl made in Italy (supplied with no plugs)
- 3m power supply cable on Aquamatic & Hydromatic
- 2 year warranty
- RHMPC15 & RPC15ADS-IT tested to AS4020 for potable water
- IP65 rated
