

PRESSURE CONTROLLERS

RPC SERIES

These high quality Pressure Controllers are for the automatic control of pressure pumps, to maintain constant pressure supply. Suitable for a wide range of pumps.

RPC15ADS
RPC22ADS
PC15

RPC5000

APPLICATIONS

- Automatic operation of pump
- Provides constant pressure supply
- Run dry protection

FEATURES & BENEFITS

- Manufactured to high quality standards
- Fitted with Australian plug - 3.0m power supply cable
- 0.5m pump cable on quick plug versions. 0.3m on 3 pin socket versions
- Power-Pump-Failure Indicator Lights
- The RPC15ADS & RPC22ADS & RPC5000 versions have Auto-Restart function. In the case of loss of water supply, it will periodically check for water every 24 hours and automatically restart the pump when sufficient water is detected
- RPC5000 is upright style, with adjustable cut-in pressure from 150 to 300kPa, pressure gauge, 3 pin socket

CODE	MODEL	CONNECTION	FUNCTION	CUT-IN PRESSURE SETTING	MAXIMUM			CONNECTION BSP	
					PRES. BAR	POWER 240V AMPS	KW		FLUID TEMP
8744	RPC15ADS	3 pin plug with 3 pin socket	24hr auto delayed start	150 kPa	10	10	1.1	60°C	25mm
8744.QP	RPC15ADSQP	3 pin plug w. quick connection socket		150 kPa	10	10	1.1	60°C	25mm
8713	RPC22ADS	3 pin plug with 3 pin socket		220kPa	10	10	1.1	60°C	25mm
8379	RPC22ADSQP	3 pin plug w. quick connection socket		220kPa	10	10	1.1	60°C	25mm
8874	PC15-QP	3 pin plug w. quick connection socket	Standard Function	150kPa	10	10	1.1	60°C	25mm
12648	PC15-3PS	3 pin plug with 3 pin socket	Standard Function	150kPa	10	10	1.1	60°C	25mm
8355	RPC5000	3 pin plug with 3 pin socket	Upright type, with adjustable cut-in pressure	150-300kPa	10	10	1.1	60°C	25mm
