

RHS SUBMERSIBLE DRAINAGE PUMP

RHS750

High quality REEFE submersible drainage pump suitable for a wide variety of draining applications including domestic, wastewater, commercial, construction and agricultural.

APPLICATIONS

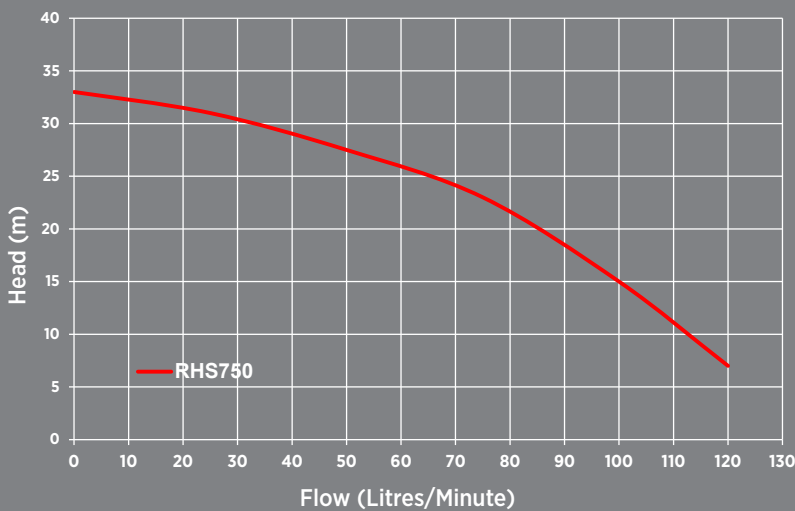

- Garden and agricultural irrigation supply
- Commercial and construction drainage and supply
- Treated wastewater
- Rainwater transfer
- Stock watering system
- Storm water and run-off

FEATURES & BENEFITS

- Compact design, easy to maintain
- Suitable for liquid temperatures up to +40°C
- Suitable for liquids with pH levels 6.5-8.5
- Solids handling up to 0.2mm
- Install up to a depth of 5m
- Robust performance for high lift applications

CONSTRUCTION

- Durable cast iron construction with stainless steel screen for demanding applications
- Thermal overload protection
- Durable PPOG20 impeller
- Dual carbon/ceramic mechanical seal
