

## WHISKEY / WINE BARREL & HAND PUMP KIT

A top selling water feature. Includes authentic half whiskey / wine barrels, cast iron hand pump, and all the tubes and fittings required to get the water moving.

CODE	DESCRIPTION
	Whiskey Barrel and Hand Pump Kit
	Includes barrel liner, submersible pump, 22" cast iron pump, wooden bracket, tubing and fittings.
21200	Barrel size: 650mm diameter x 440mm high (varies) (Overall height 940mm)
	Note: The bands on the barrel and the hand-pump may be rusty - this is not a fault but is an inherent feature which adds to the authenticity. Hand pump colour may vary.

## ORNAMENTAL CAST IRON HAND PUMPS

These authentic cast iron hand pumps are perfect for water features and as garden ornaments. Please note that the cast iron interior is untreated and may discolour the water over time. Not suitable for potable water or animal drinking water.

CODE	DESCRIPTION
21252	Cast Iron 22" - Short Spout 1 1/4" FBSP inlet 660mm high including handle, 410mm wide (spout approx 210mm long) Note: Colours and sizes vary

## HALF WINE BARRELS & PLANTERS

Authentic half wine/whiskey barrels make the perfect planter or trough for a water feature.

CODE	DESCRIPTION
21270	Authentic Used Wine Barrel Half - Size & Conditions Vary (Approx. 770mm dia. x 440mm H)
21276	Used Barrel Half with Poly Liner 21289

When barrels dry out, the timber may show some gaps. This is just the natural characteristics of the timber. To overcome, soak the barrel with water. This will cause the timber to expand and close the gaps.

## WINE BARREL LINER

Make your wine barrel water tight by adding a high quality HDPE liner.

CODE	DESCRIPTION
21289	Wine Barrel Liner - 80L Suits used and new wine barrels 735mm OD (630mm ID) x 375mm deep
