

# PRJ65E JET PRESSURE PUMP

## EU SERIES

The PRJ European Series of pressure pumps are of superior quality construction and efficiency giving real power savings to the owner. They are suitable for the supply of water to the house and garden. Quiet running and reliable, ideal for suburban areas. Suitable for Drinking Water - tested to AS4020 for Potable Water.

### APPLICATIONS

- Domestic water supply
- Garden irrigation
- Clean water transfer
- Rain to Mains backup system for new housing
- Water storage tank pump set

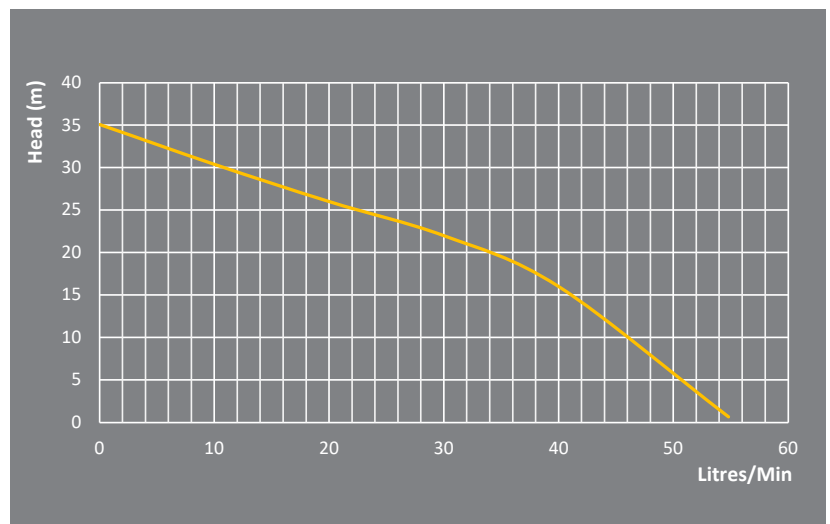

### FEATURES & BENEFITS

- Power saving, high efficiency design, uses up to 50% less power than many alternatives
- Automatic pressure controller gives consistent pressure supply with run-dry protection
- Special function pressure controller that automatically checks for water every 24 hours after a run-dry event
- Tested to AS4020 for potable water
- Suction lift up to 8m depth (with foot valve)
- Quick-plug connection on pressure controller
- Maximum liquid temperature 60°C

### CONSTRUCTION

- Techno polymer diffuser, jet & venturi, brass barrel union
- Stainless Steel 304 Pump Body, Shaft & Impellers
- Motor Bracket in die casting aluminium
- Carbon mechanical seals for reliability
- Class F Insulation Degree of protection: IP 44
- Terminal board protection: IP 54
