

PRJ55E JET PRESSURE PUMP

EU SERIES

The PRJ European Series of pressure pumps are of superior quality construction and efficiency giving real power savings to the owner. They are suitable for the supply of water to the house and garden. Quiet running and reliable, ideal for suburban areas. Suitable for Drinking Water - tested to AS4020 for Potable Water.

APPLICATIONS

- Domestic water supply
- Garden irrigation
- Clean water transfer
- Rain to Mains backup system for new housing
- Water storage tank pump set

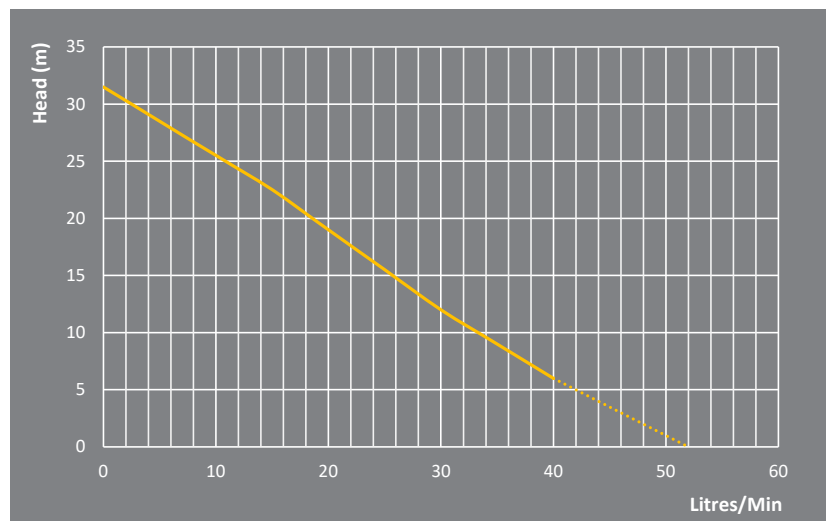

FEATURES & BENEFITS

- High suction lift capability - up to 9m
- Certified to AS4020 for use with potable water
- Superior Carbon Ceramic Seal for durability
- Automatic Pressure Controller with weatherproof cable connection
- Quick-plug connection on pressure controller
- Maximum suction 9m (with foot valve)
- Maximum liquid temperature 35°C
- Maximum liquid temperature 60°C

CONSTRUCTION

- Techno polymer diffuser, jet & venturi
- Brass barrel union for high corrosion resistance and longevity
- Stainless Steel 304 Pump Body, Shaft & Impellers for quieter operation
- Motor Bracket in die casting aluminium
- Carbon mechanical seals for reliability
- Highly efficient motor casing withstands high operating temperatures.
- IP44 Protection Rating | IP54 Terminal Board Protection | Class F Insulation
