

TURBINE PRESSURE PUMP

DT-E SERIES

The WaterPro turbine pressure pump is specifically designed for water transfer to small houses for domestic and garden use. European made, this pumps features a robust construction for greater longevity and reliable performance in domestic applications.

APPLICATIONS

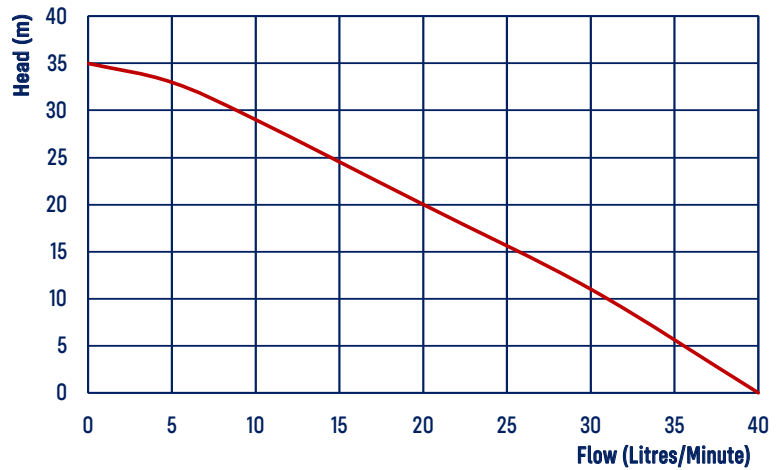

- Small House Supply
- Clean Water Transfer
- Garden Tap Supply
- Garden Irrigation

FEATURES & BENEFITS

- Reliable, efficient performance
- Assembled with automatic pressure controller for consistent pressure supply
- Run dry protection

CONSTRUCTION

- Aluminium motor housing
- Brass impeller and union
- Carbon/ceramic mechanical seal
- Cast iron impeller housing
- Ingress Protection IP44
- Insulation Class B
