

# CUTTER PUMP

## RCE SERIES

The REEFE cutter pump features a superior design for the drainage of dirty water. The motor is precision engineered with stringent quality control for maximum reliability and efficiency. European made, these heavy duty pumps are constructed to withstand high demands, guaranteeing a long service life.

### APPLICATIONS

- Trade Waste
- Drainage
- Waste treatment facilities
- Domestic sewage, without sanitary items or wipes
- Animal Waste

### FEATURES & BENEFITS

- Durable, corrosion proof materials for resistance to sewage
- Integrated float switch for auto start/stop function
- Max head up to 18m
- Max immersion depth of 5m
- Soft solids handling up to 30mm
- Thermal overload protection
- Electrical Safety Approval to AS/NZS 60335.2.41
- Max liquid temperature 35°C
- Max ambient temperature 40°C

### CONSTRUCTION

- INOX Stainless steel pump casing and shaft
- Cast iron hydraulic cutter and impeller
- Ceramic-silicon axial seal
- 10m H07RN-F Cable
- Ingress Protection IP68
- Insulation Class F
