

## DOMESTIC VORTEX SUMP PUMP

### DVE SERIES

The WaterPro DVE160 submersible vortex pump has been specifically designed for semi professional sump pump out applications. This pump is efficient and features a heavy duty construction for extended pump service life.

#### APPLICATIONS

- Pool Emptying
- Septic Systems (Excluding Raw Sewage)
- Stormwater
- Greywater

#### FEATURES & BENEFITS

- Light weight and compact design
- Soft solids handling up to 30mm
- 10m H05RN-F Power Cable
- Adjustable float switch
- Double walled motor housing design, for effective cooling
- Electrical Safety Approval to AS/NZS60335.2.41

#### CONSTRUCTION

- Stainless steel motor casing and shaft
- Technopolymer vortex impeller
- High-grade, corrosion-proof NORYL PPO main body and base
- Jointly sealed shaft with spring loaded seal ring and slide-ring axial seal.
- Ingress Protection IP68
- Insulation Class F
