

DSE130 DOMESTIC VORTEX SUMP PUMP

EU SERIES

The WaterPro® Domestic Vortex Submersible pump is an economical solution for many sump, draining and sullage applications. Lightweight, efficient and high quality construction covered by a 12 month warranty.

APPLICATIONS

- Sump drainage
- Pool emptying
- Greywater pumping
- Septic systems
- Stormwater

FEATURES & BENEFITS

- Solids handling 20mm
- Max immersion depth of 5 metres
- High performance
- Integrated float switch, auto start/stop function
- Thermal overload protection
- 10m power cable, H05RN-F
- Includes 3 different hoesetails - 25/32mm
- lightweight for ease of installation and maintenance
- high-wear mechanical seals for long service life in harsh environment

CONSTRUCTION

- Stainless steel motor casing and shaft
- Technopolymer vortex impeller with special sand-lifting design to reduce clogging and wear
- High-grade, corrosion-proof NORYL PPO main body and base
- Jointly sealed shaft with spring loaded seal ring and slide-ring axial seal.
- European adjustable depth float switch
- Motor insulation Class F
- Noryl base, outlet and hoesetail
