

DOMESTIC JET PRESSURE PUMP

DJ-A SERIES

The WaterPro domestic jet pressure pump is suitable for the supply of water to house and garden. The pump features reliable performance and quiet operation, ideal for domestic applications.

APPLICATIONS

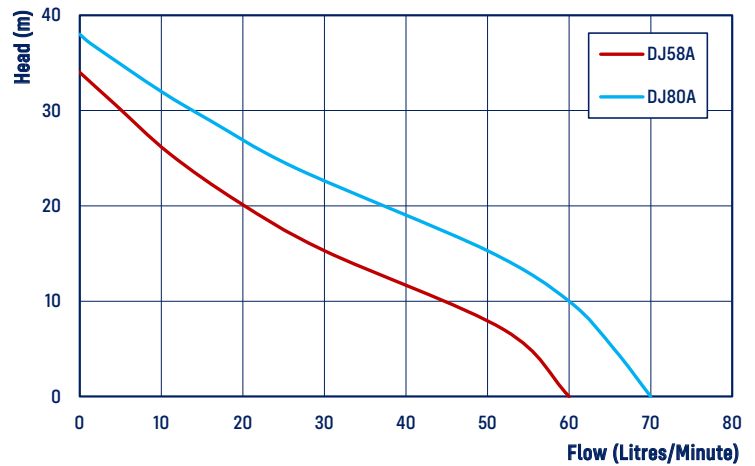

- Domestic water supply
- Garden irrigation
- Clean water transfer
- Rain to Mains backup system for new housing
- Water storage tank pump set

FEATURES & BENEFITS

- High suction lift capability - up to approx. 8m
- Assembled in Australia
- Quick Plug Connection between pump and controller for fast and convenient servicing
- Dry run prevention, protecting the pump if you ever run out of water
- 24hour Auto restart function - for fewer operator interventions
- Corrosion resistant components to ensure a lasting investment
- Reinforced poly fan cover with anti-crush design, able to resist that stray football
- Max Water Temperature - 50°C
- Max Ambient Temperature - 40°C
- Certified to AS/NZS4020 for use with potable water

CONSTRUCTION

- Superior carbon-ceramic mechanical seal for durability
- Automatic pressure controller with weather proof cable connection
- Stainless steel pump body and motor shaft for high corrosion resistance
- Noryl diffuser, Jet Venturi and Impeller
- Barrel union between pump and controller for quick assembly/disassembly
- Terminal Board Protection IP54
- Insulation Class F
