

RPC22E AUTOMATIC PRESSURE CONTROLLER

RPC SERIES

The REEFE® RPC Pressure controller is designed for automatic control of pressure pumps to maintain constant pressure supply. Made in Europe, this controller is of exceptional quality and has been constructed under stringent quality standards to guarantee a long service life. The controller features superior internal programming for auto-restart function and detection of water availability to prevent run dry events.

APPLICATIONS

- Constant pressure supply in domestic applications
- Automatic operation of pressure pumps
- Irrigation
- Rain to Mains Systems

FEATURES & BENEFITS

- Automatic operation eliminating the need for manual resets/operation
- Integrated protection system to prevent dry-running operation
- Compact design and easy to install
- Light indicators, power on-power off, 'low water'

RPC PRESSURE CONTROLLER

FEATURE	SPECIFICATIONS
Code	20777
Model	RPC22E
Start Pressure	2.5 Bar
Max Power	1.5kW
Voltage	240V
Frequency	50Hz
Max Peak of Current	10A
Protection Rating	IP65
Maximum Liquid Temperature	50°C
Maximum Pressure	10 Bar
Net Weight (without cables)	0.72Kg

POSITION	COMPONENT
1	1" Outlet (25mm)
2	Front Control Panel
3	Pressure Guage
4	Controller Casing
5	1" Inlet (25mm)
