

DOMESTIC SUMP PUMP

RDS SERIES

The REEFE domestic submersible pump is European made, is highly efficient, reliable and durable, guaranteeing longer service life. Suitable for pumping clean and slightly dirty water.

APPLICATIONS

- Stormwater/cleanwater
- Rainwater Drainage
- Pool emptying
- Domestic dewatering

FEATURES & BENEFITS

- Flat base for maximum stability
- Soft solids handling up to 5mm
- Max Immersion depth of 5m
- Float switch with auto start/stop function
- Lightweight design for faster & easier installation
- Thermal overload protection - manual reset
- Electrical Safety Approval to AS/NZS 60335.2.41

CONSTRUCTION

- High strength Noryl PPO Polymer pump body and impeller
- Shaft sealed with Spring-loaded seal ring (gasket) and axial seal
- 10m H05RN-F Power Cable
- Ingress Protection IP68
- Insulation Class F
