

## FLOAT SWITCH 10A

### FS SERIES

The REEFE series of float switches are suitable for water pumps and professional pumping systems automation. Guarantee reliable integration with your pump and control equipment.

### APPLICATIONS

- Pump out and tank fill control
- Suitable for use in sewage and stormwater stations
- High level alarm switch
- Run dry protection for low level sensing
- Tank Level Control

### FEATURES & BENEFITS

- Neoprene Cables for resistance to chemicals and oils
- Includes easily adjustable counter weight
- Can be configured for close on rise and close on fall operation
- Unique switch design where there is no contact with ball and switch preventing shorts due to corrosion

**FS with COUNTERWEIGHT**

**FSC without COUNTERWEIGHT**
