

EXTERNAL RAIN MAINS SYSTEM

RM6000-5 - 25mm system with minimal pressure loss on Mains*

RM6000-5 RainPro is the RM4000-5 RainPro “Easy Install” Unit with a 25mm valve system with no pressure loss on the Mains supply, with the added advantage of a pump cover. The Rain Mains device has no cables, no float, no solenoid, no electronic controls. Kit comes complete with cover and flexible hoses. The RM6000-5 stops the flow of mains supply while rainwater is being pumped to help conserve water. This system is only suited to flooded suction.
