

EXTERNAL RAIN MAINS SYSTEM

RM7000-4 - 20mm system with minimal pressure loss on Mains

RM7000-4 RainPro is the RM4000 RainPro "Easy Install" unit with 20mm RM1600-2 valve system with minimal pressure loss on the Mains supply, with saddle design pump cover. No cables, no float, no solenoid, no electronic controls. Kit comes complete with cover and flexible hose. The RM7000-4 stops mains supply while rain water is being pumped to help conserve water. This system is only suited to flooded suction and is best for supplying laundry and toilets, and small houses & cabins (1 bathroom). For suction lift and underground tanks, use submersible pump option RM5000-4. For whole house supply (with more than one bathroom) use the RM1500-2. Pump covers available in a variety of colours to match most standard tank colours.

APPLICATIONS

- Domestic toilet & laundry
- Small house / cabin / granny flat (1 bathroom)
- Small commercial / Industrial*
- Garden Irrigation*
- Toilet blocks (up to 6 fixtures)*
- Construction / mine site offices*

PACKAGE COMPLETE WITH

- European Made Pressure pump PRJ55E 52L/min, 31.5m head
- Mains Flow 50L/Min
- Certified to AS/NZS4020 for use with potable water
- Pressure controller auto restart
- RM1600-2 Valve
- Flexible hoses (20mm)
- Y-Strainer
- Saddle style pump cover
- · Other pump sizes available
