

MULTISTAGE PRESSURE PUMP

DHM SERIES

WATERPRO DOMESTIC

These heavy duty stainless steel multi-stage pressure pumps are designed for years of quiet, efficient and vibration free operation. Suitable for many applications from home and garden to commercial water supply. Capable of handling fluid temperatures up to 60°C. Extra quiet pumps which will give many years of trouble free operation.

APPLICATIONS

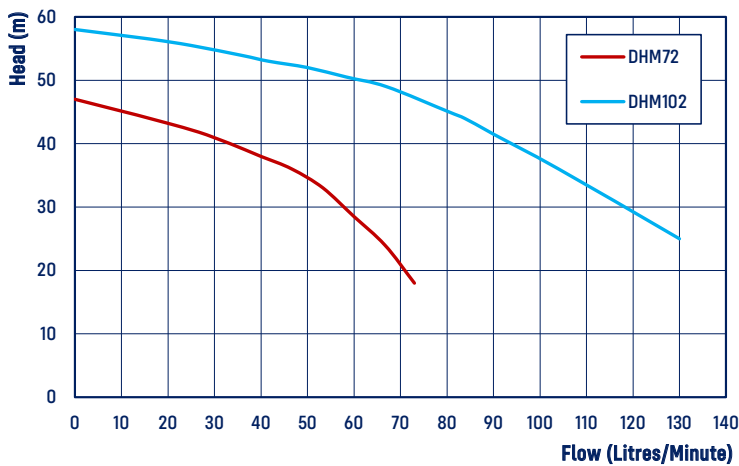

- Whole house supply, apartment blocks
- Commercial laundry applications
- Amenities blocks, hotels, restaurants
- Stock watering systems, chicken farms
- Irrigation supply

FEATURES & BENEFITS

- Automatic pressure controller giving consistent supply with run-dry protection
- Lower Power Consumption
- Excellent Pressure - up to 580Kpa Max
- Quick-plug electrical connections on pressure controller
- Special function on pressure controller that automatically checks for water every 24 hours after a run dry event
- Certified under AS/NZS4020 for use with potable water

CONSTRUCTION

- All wetted parts are made of grade 304 stainless steel
- Continuous duty, 2-pole induction motor
- Thermal overload protection
- Ingress Protection IP54
- Insulation Class F
