

1200L PACKAGED PUMP STATIONS

QUBEX 1200 SERIES

Designed for substantial residential complexes and small commercial facilities, the QubeX 1200 Series excels in handling high-volume wastewater needs with unparalleled reliability. These systems come with high-capacity REEFE pumps, making them ideal for applications requiring extensive wastewater management, including large family homes, small restaurants, or boutique hotels like AirBNB's.

APPLICATIONS

- Sewage
- Stormwater
- Greywater
- Holding tank

FEATURES & BENEFITS

- Lightweight
- Can be deepened with risers
- NSW & SA Health Approved

CONSTRUCTION

- Sturdy rotomoulded polyethylene
- REEFE pumps pre-installed
- Easy pump maintenance with cam-lock connections
- Available with a wide range of access covers and grates

ACCESS COVER OPTIONS

Pump Stations are supplied standard with Poly Pedestrian Access Covers unless requested otherwise. Add the following (CB), (CD), (GB) or (GD) to the end of the code for other Access Options. E.G. P7D-V55(CB)

CB	Class B Access Cover	CD	Class D Access Cover	Other classes available
GB	Class B Access Grate	GD	Class D Access Grate	

CONFIGURATION

Pumps are supplied standard Freestanding unless requested otherwise. If Guide Rail Systems are required add (GR) to the end of the code.

CONTROLLERS

Varying Controller options available (Stainless Steel, SMS Alarms, BMS Systems, Inner Door Enclosures). Pump Stations are supplied standard with Outer Door Pump Controllers unless requested otherwise.
