

## SHALLOW WELL JET PUMP

RSWE SERIES

The REEFE self-priming jet pump has been specifically constructed for high demands of suction lift. Suitable for the supply of water to house and garden, stock watering troughs. 100% European made, guaranteeing superior quality and longer service life.

### APPLICATIONS

- Clean water transfer
- Surface mounted shallow wells
- Spear point wells
- Garden sprinklers and irrigation
- Stock watering

### FEATURES & BENEFITS

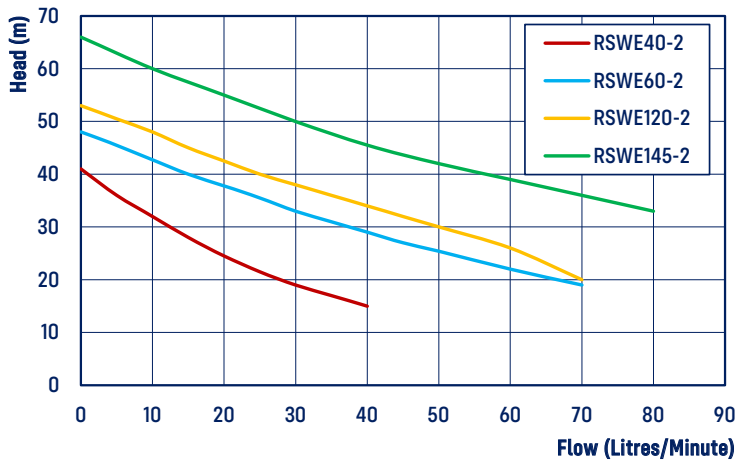

- Continuous rated motors to ensure long service life.
- Available in various combinations:
  - Pump only
  - Automatic Pressure Controller (PC)
  - Pressure Switch with Tank and Gauge (PTS)

### CONSTRUCTION

- Cast Iron motor bracket and pump body
- Venturi in Noryl
- Grade 416 stainless steel shaft
- Built-in thermal overload protection
- Ceramic / Graphite mechanical seal
- Noryl impellers on RSWE40-2, RSWE60-2, RSWE120-2.
- Brass Impeller on RSWE145-2
